

RESOLUTION

Ashland, Richland, Knox, Wayne and Holmes County all have businesses that derive significant benefit from tourism in the Mohican Park and Malabar Farm area. This Mohican complex, consisting of about 10 square miles of state park and forest, is unique and irreplaceable in Northern Ohio. Timbering and fracking the Mohican Complex would damage the economy of these counties for many decades to a far greater extent than the revenue the State of Ohio would derive.

Therefore, on _____(date) the _____(name of local government) resolve to ask the State of Ohio to cancel any plans to drill, frack, or timber in the Mohican Complex.
